PROFILE

Native iOS Developer experienced in building mobile applications with Swift and Objective-C, applying modern architecture patterns such as MVVM, VIPER, and Clean Architecture. Comfortable working with reactive frameworks like RxSwift and Combine, and enjoy breaking down complex problems into clean, well-tested solutions. Detail-oriented and collaborative, with a focus on delivering smooth and user-friendly applications.

EDUCATION

9-Month Professional Diploma — Information Technology Institute (ITI) Oct 2025 – Aug 2026
Track: Native Mobile Applications

BSc. Computer Science and Information Technology Sep 2021 – Jun 2025
Faculty of Computers and Informatics, Suez Canal University
Cumulative Grade: Very Good
Graduation Project: AI-powered app that analyzes baby cries to identify needs (*Grade: Distinct*)

PROJECTS

LinguaQuest - iOS - Swift

Overview: Collaborated with a team to build a gamified, AI-powered language-learning iOS app featuring real-time voice role-play, AI word insights, image validation, and a localized, rewards-based UI.

Technologies: Swift, SwiftUI, Clean Architecture, Swinject DI, REST APIs, WebSockets, Gemini AI.

Shopify - iOS - Swift

Overview: Modular e-commerce iOS app built as a custom Shopify storefront featuring GraphQL data fetching, AI-powered shopping assistance, secure Stripe/Apple Pay integration, and EN/AR localization.

Technologies: Swift, SwiftUI, Clean Architecture, MVVM-C (Coordinator), GraphQL (Apollo), Firebase, Stripe, Apple Pay, SwiftData, Swinject (DI), Lottie.

Sport Mob - iOS - Swift

Overview : A premium UIKit sports application featuring live data tracking, offline persistence, and complete multilingual support built with a decoupled architecture.

Technologies: Swift, UIKit, RxSwift, Alamofire, MVP, Core Data, REST APIs, XCTest.

SKILLS

iOS Development & Architecture

Languages: Swift, Objective-C

Frameworks: SwiftUI, UIKit

UI & Performance: Auto Layout, Constraints, GCD, Async/Await, Threading & Concurrency

Architecture & Design Patterns: MVP, MVC, MVVM, VIPER, Clean Architecture, Dependency Injection, Delegate Patterns, RxSwift, Combine

Data Persistence: Core Data, SwiftData, SQLite, User Defaults, Firebase

Networking : RESTful APIs, URLSession, Alamofire

Engineering Principles & Tools

Core Principles: OOP, SOLID Principles, Memory Management

Testing & Quality: Unit Testing, Mocking, Expectations, Code Refactoring

App Features: Notifications, Localization

Tools: Xcode, Git, GitHub, Postman, Apidog

Methodologies: Agile

LANGUAGES

Arabic (Native) English (Intermediate)
